**AGRICULTURAL SCIENCE**

**FOOD SCIENCE**

**ENVIRONMENTAL SCIENCE**

**SOCIAL SCIENCE**

**ISARA-Lyon** is a private engineering college in agricultural and food sciences recognized by the French Ministry of Agriculture. It offers a wide range of training options in agriculture, food science and food heritage, social sciences, agri-business and environmental science. ISARA-Lyon also develops research activities and advisory services (see [www.isara.fr/en](http://www.isara.fr/en)) around three themes :

- AGROECOLOGY
- SUSTAINABLE FOOD SYSTEMS & FOOD HERITAGE
- INNOVATION & ENTREPRENEURSHIP

### *ISARA-Lyon is a member of...*

#### **Université de Lyon**

A state-run Higher Education & Research consortium and a member of an association of 11 Higher Education Institutions which federate their Graduate Schools: 4 universities, a wide range of engineering colleges called “Grandes Ecoles” and national research institutes,

France’s No. 1 Center of research and higher education outside Paris,

130,000 students,

11,500 researchers and professors, 5,700 PhD students, 220 public sector laboratories.

#### **FESIA**

A network of colleges specialized in agricultural and food science with around 6,000 students: [www.fesia.org](http://www.fesia.org)

### *ISARA-Lyon is located...*

in a very dynamic environment close to companies, research centers and professionals working in agriculture, food industry, rural development and environmental sectors. ISARA-Lyon is situated at the heart of LYON BIOPOLE (competitive cluster) and AGRAPOLE (cluster of excellence supported by the Auvergne Rhone-Alpes local government, specialized in agriculture and food, which involves over fifty professional organizations working in these sectors).

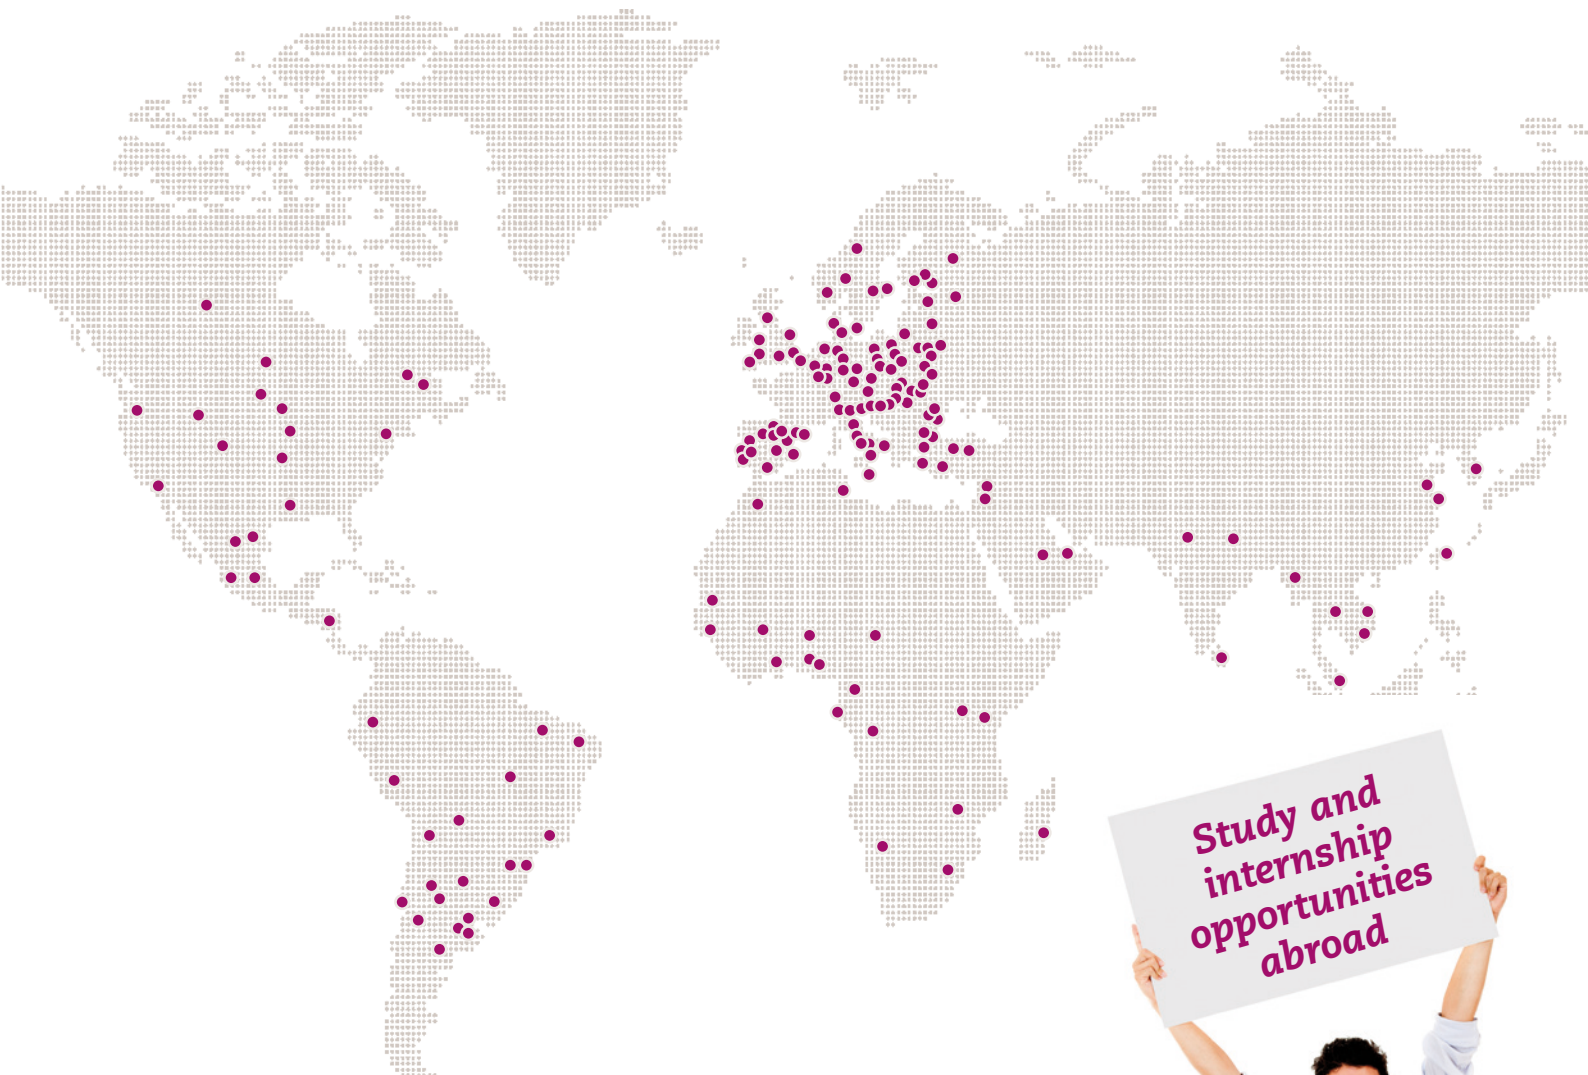

## OUR INTERNATIONAL NETWORK WITH PARTNER INSTITUTIONS

Over **130**  
exchange agreements  
and a variety of internship  
positions all over the world

**5** double degrees with  
partner institutions in  
the Netherlands, Norway,  
Mexico, Brazil, Chile

**5** international MSc programmes  
(Agroecology, Organic Agriculture,  
Animal Production, Localized Food Products  
and Sustainable Food Systems)

Study and  
internship  
opportunities  
abroad

# STUDY AT ISARA-LYON

## ISARA-LYON'S ENGINEERING DIPLOMA IS:

- Recognized as a Master's degree by the French State (Ministry of Agriculture)
- In harmony with the European ECTS system (300 ECTS for the whole 5-year programme, 180 ECTS for the Bachelor level and 120 for the Master level)
- Based on a very specific pedagogy combining theory and practice
- Accredited under the EUR-ACE label

### 5 specializations offered:

**You hold a High School Diploma/Leaving Certificate of secondary education:** apply on the following website  
[www.grandesecoles-postbac.fr](http://www.grandesecoles-postbac.fr)

**You hold a Bachelor of Science or equivalent degree:**  
**More information:** [student@isara.fr](mailto:student@isara.fr)

Agriculture,  
environment and  
natural resources  
management

Agrifood,  
food and  
industrial  
management

Sustainable  
rural  
development

Markets and  
corporate  
management

Viticulture,  
Territories  
& Agroecology

## MSc DEGREES:

**Come and study on one of our International MSc degrees: worldwide partnerships, strong international culture, double degree programmes and much more.**

- European MSc in Agroecology, leading to a double degree with the Norwegian University of Life Sciences / Information and application: [www.agroecos.fr](http://www.agroecos.fr)
- MSc in Agroecology and Organic Agriculture, leading to a double degree with Wageningen University of Life Sciences / Information and application: [www.agroecology.fr](http://www.agroecology.fr)
- Master Food Identity on localized food products / Information and application: [www.masterfoodidentity.com](http://www.masterfoodidentity.com)
- European MSc Sustainable Food Systems / Information and application: [www.susfoods.eu](http://www.susfoods.eu)
- MSc European Animal Management / Information and application: [www.eurama.org](http://www.eurama.org)

**More information:** [student@isara.fr](mailto:student@isara.fr)

## ENJOY A SPECIALIZED PROGRAMME AND GET CREDITS IN FRANCE

### Exchange studies

Your university has signed a cooperation agreement with ISARA-Lyon? Come and study for one or two semesters on one of our 5 specialisations:

- Agriculture, environment and natural resources management
- Agrifood, food and industrial management
- Sustainable rural development
- Markets and corporate management
- Viticulture, Territories & Agroecology

More information, details on the curricula: [student@isara.fr](mailto:student@isara.fr)

**The study period** can include internships on farms, in companies or laboratories.  
**The credits obtained** during your studies at ISARA-Lyon are fully recognized by your home university.

### International Summer Session on Agroecology (5 weeks)

Discover France's rich culture, learn French, and concentrate on Agroecology!

#### ACADEMIC PROGRAMME: SUSTAINABLE AGRICULTURE & FOOD SYSTEMS (IN ENGLISH)

Understand how biodiversity can be supported in European environments, combining natural landscapes and human activities  
Acquire tools and methods for agroecosystem diagnosis through case studies, field work, personal investigation and lectures

#### LINGUISTIC & CULTURAL PROGRAMME

Savour the beauty of Lyon and its Unesco World Heritage Site  
Discover Lyon's culinary traditions and the French lifestyle combining great food, great culture and a wide range of leisure activities

# RESEARCH AND EXTENSION

Our research and extension teams, made up of agronomists, ecologists, economists and food and social scientists, work in three main areas :

## AGROECOLOGY

- Agroecological innovations applied in agricultural sciences
- Impact of anthropogenic practices on biodiversity and ecosystem functioning
- Green technologies applied in food science

## SUSTAINABLE FOOD SYSTEMS

- Local food networks and sustainable food systems
- Territorial development of organic agriculture, environment and commercialisation
- Territorial valorisation practices as a source of sustainability for food systems

## INNOVATION & ENTREPRENEURSHIP

- Identification, promotion and support of innovative business initiatives
- creating added value in food, agriculture and environment sectors

## A DYNAMIC CITY AT THE HEART OF EUROPE

ISARA-Lyon is established in Lyon in the south-east of France, in a very dynamic environment close to companies, research centres and professionals working in agriculture, food industry, rural development and environment sectors.

### LYON: second-ranking city in France

as regards to its student population. Lyon is endowed with rich cultural and gastronomic traditions, and its old city is a UNESCO World Heritage Site. Our eventful city offers you an exceptional quality of life.

### A student city

Lyon's 130,000 students have many opportunities to enjoy fascinating places and events, for instance the evening parties organized on riverside barges, the renowned «Lights» (Fête des Lumières), the Dance Festival (Biennale de la Danse), the Nuits de Fourvière music, dance and theatre festival, the roller-blade tours to discover Lyon by night ...

### Culture, gastronomy and sports ...

Lyon has all the amenities of a big city while being easy to negotiate on foot. Outdoor leisure activities abound thanks to Lyon's favourable location close to the mountains and the sea.

### Agrapole, a Auvergne Rhone-Alpes cluster of excellence:

Lyon hosts a cluster specialized in agriculture and food, which includes over fifty professional organizations of these sectors.
