

# Amahozu ayehe katji yeno ndengu imwe: ongononono yo mahozu mo Greater Waterberg Landscape

Nesongano W. C. and N. Hamunyela

Department of Environmental Science, Faculty of Agriculture, Engineering & Natural Sciences, Windhoek, University of Namibia

## Ehi rokongotwe

- Omahozu peke peke yeno viungura mbya pwira yo mokuti
- Okutja, ondengu yehozu mokuti iza kovihepwa vyokuti moruveze ndo
- Rangeland: oruveze orunene nduyandja omaryo ko vinamuinyo vyo ponganda no vipuka vyo mokuti
- Omahozu tjiva ye toororwa iyo vinamuinyo mena romasa ngu ye yandja = Palatable species/ high grazing value
- Ondengu/Ongaro yokuti iyenena okutarerwa komahozu, inga ngehapa ombura aihe nainga omakarerere, nu wina itarerwa kondengu yomihoko viomahozu ngehapa mokuti ngo

## Omahozu omanandengu kovinamuinyo ngatja yekara morukondwa

Ngumayekongorere mba omahozu omawa kovinamuinyo ngutwamuna motupa twarwe to rukondwa ndwi o Greater Waterberg Landscape, okutja ngu mapeya kutja yari morukondwa rwaZonahi wina:

*Antheophora pubescens*

*Schmidtia pappophoroides*

*Brachiaria negropedata*

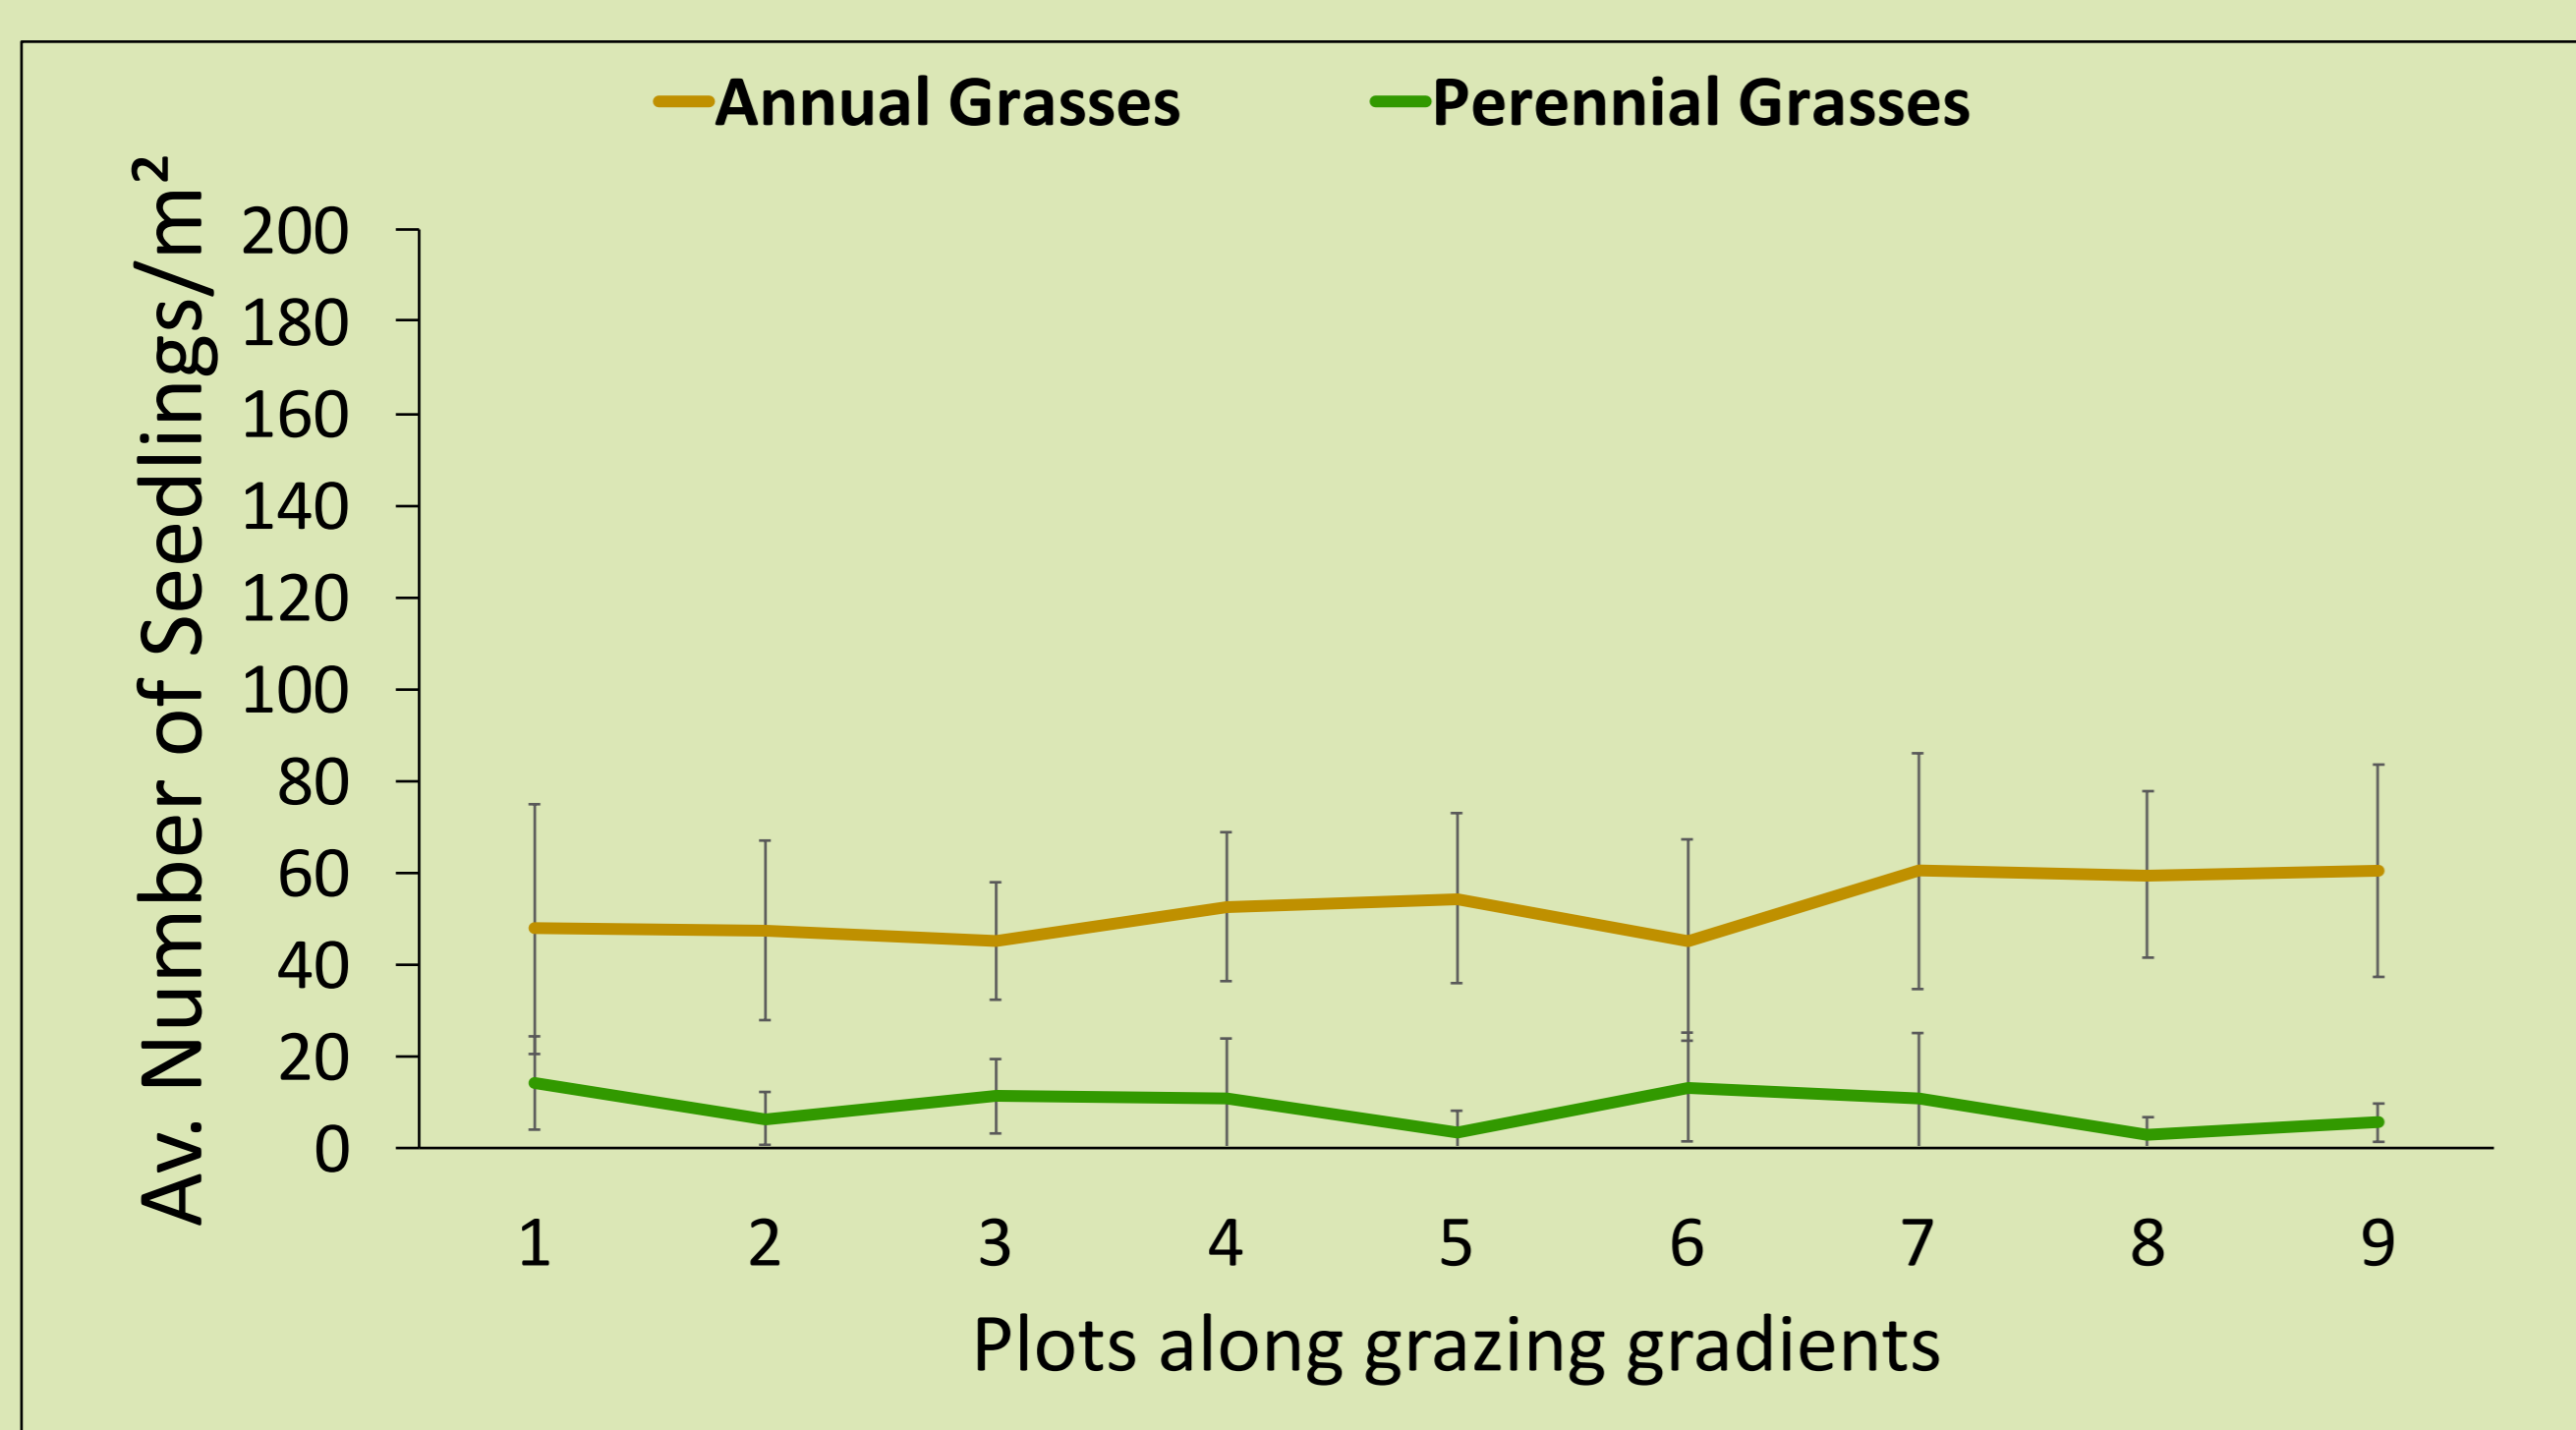

*Cenchrus ciliaris (bloubuffelsgras)*

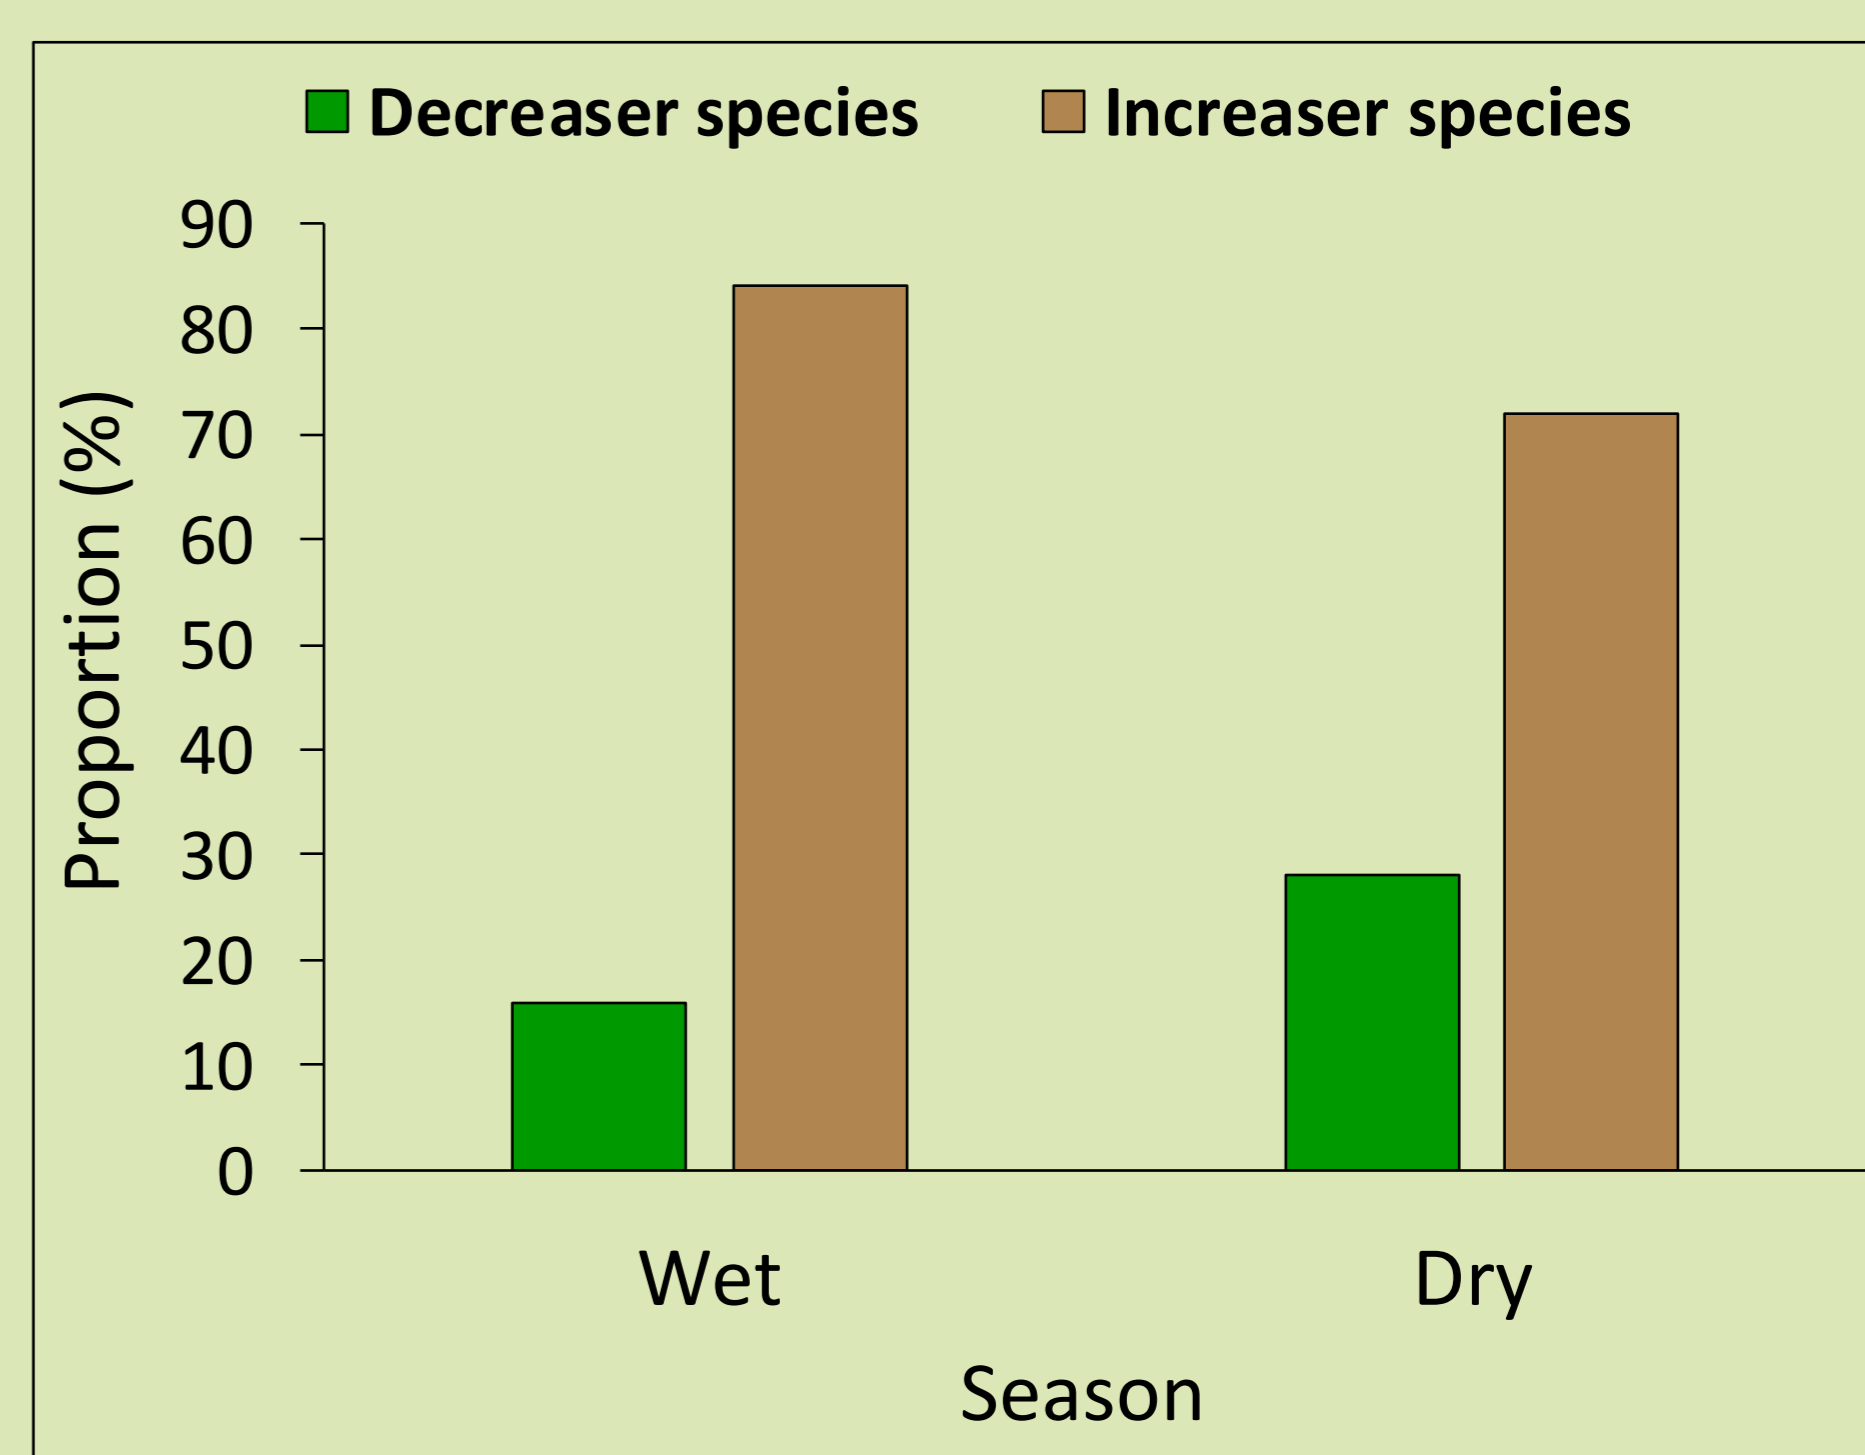

## Ongaro yokuti/yomaryo nai morukondua ndwatarewa

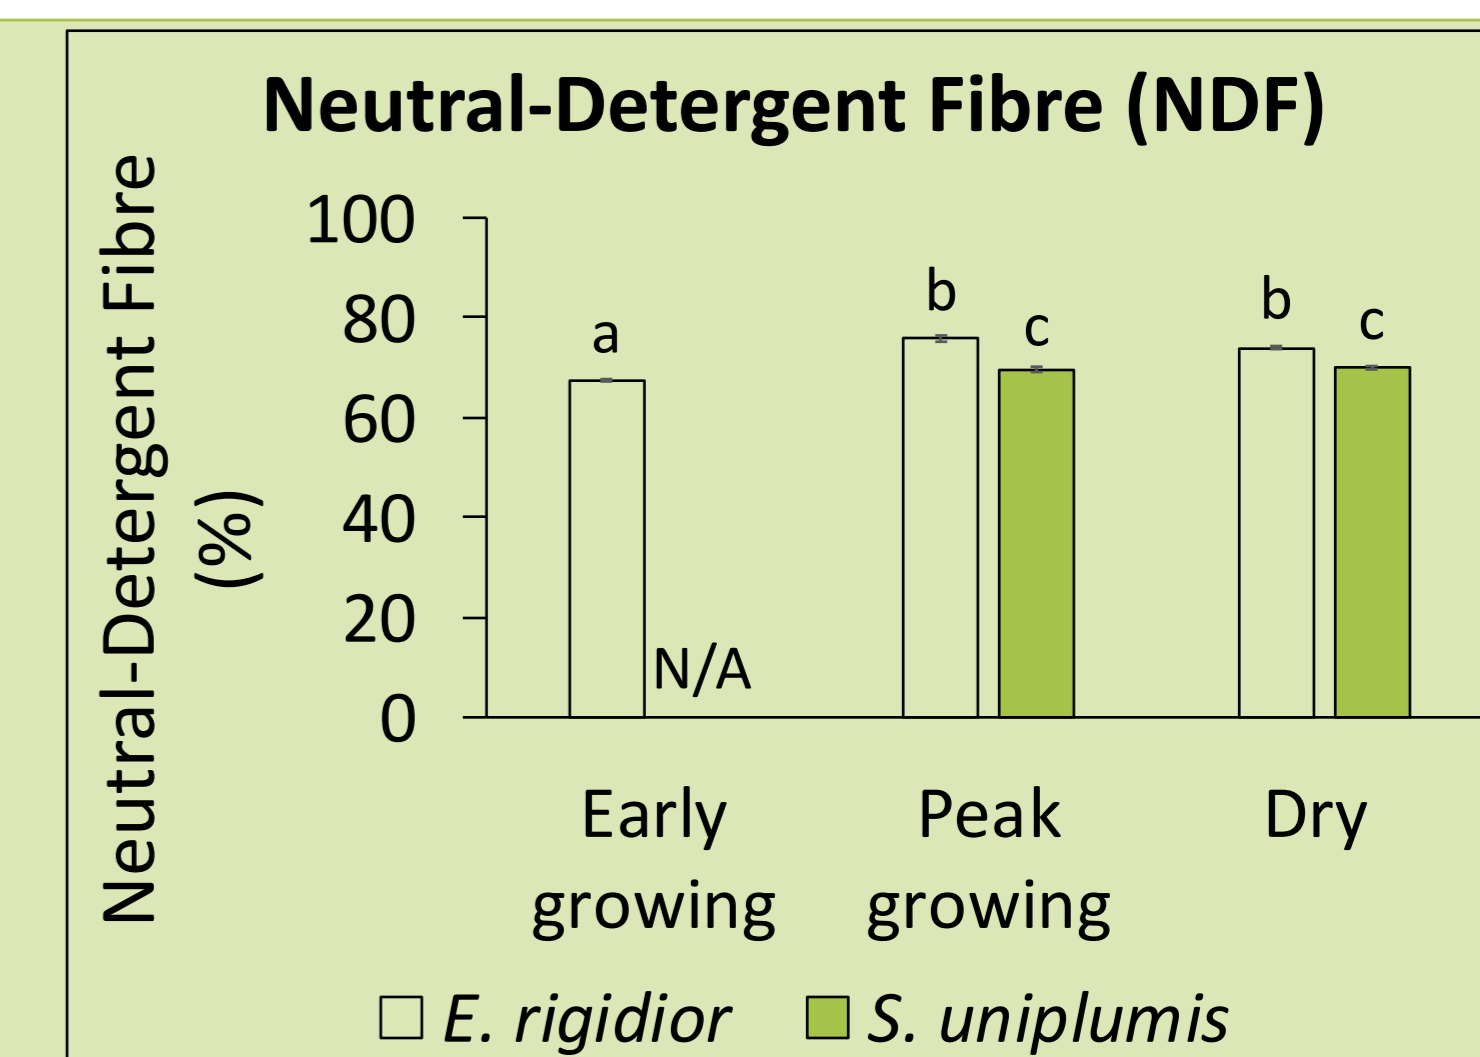

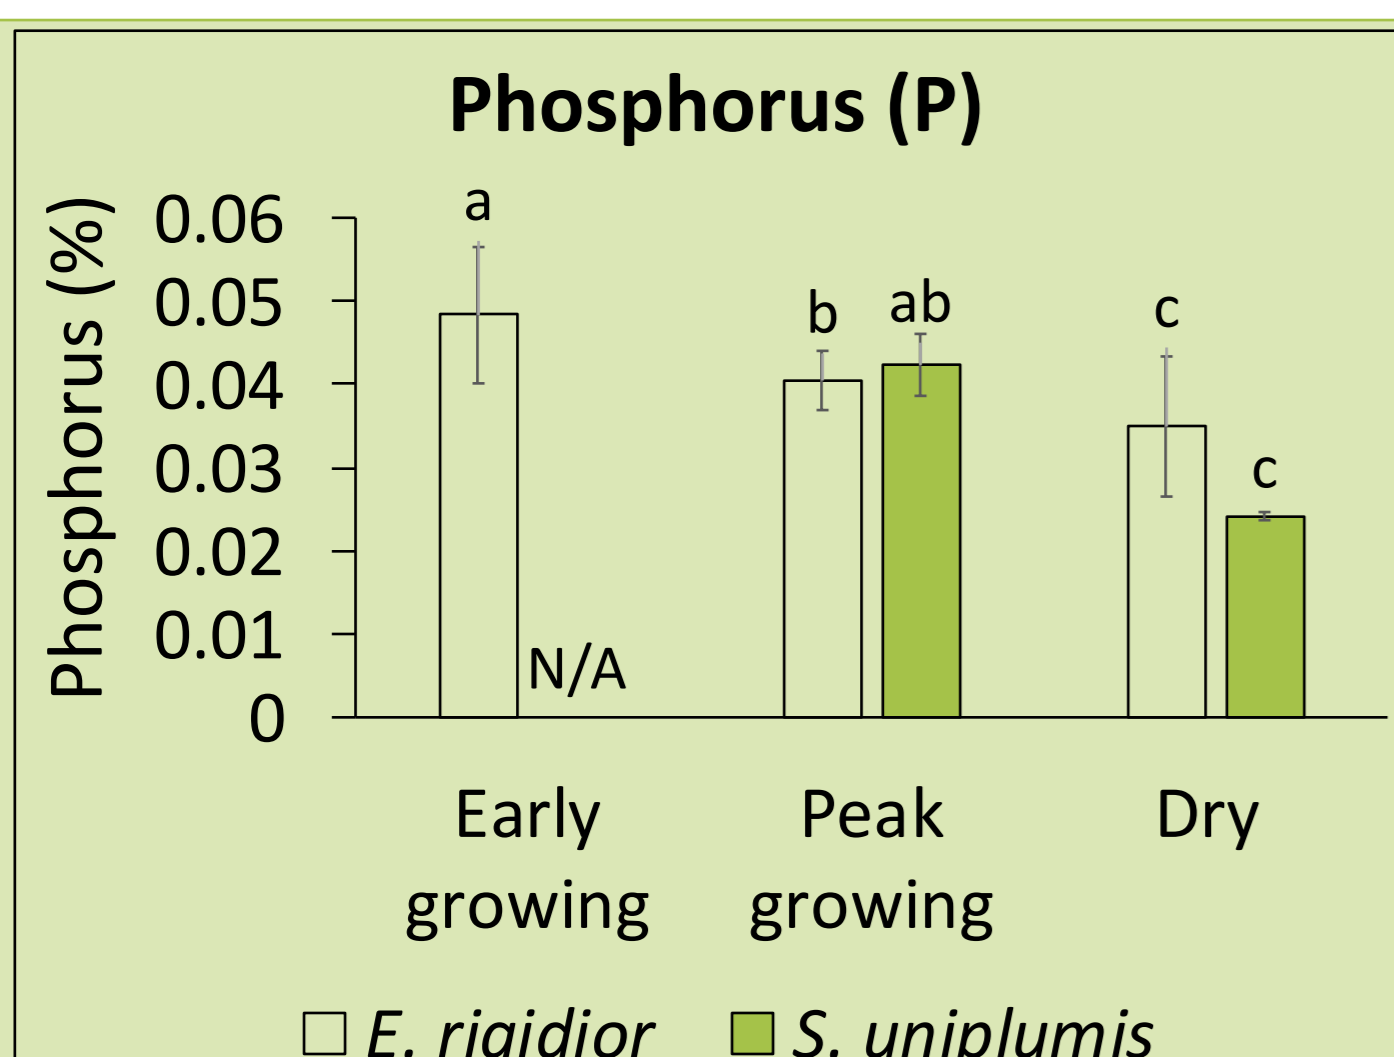

(a) Ozondui mehi

(b) Omahozu mokuti

## Nutritional value of two common grasses: Okaṭupa village case study

## Ombuze yokutwaererwa

- Okuti kwetu kwanyonoka: omahozu mokuti no zondui mehi
- Matuhepa ondjamo ya tjimanga
- Okukuna ozondui zomahozu omawa/ omanandengu ngari morukondua morukapita veze mapeya arire imwe yozongondjero ndu mapeya azeyama
