

TEACHING EXPERIENCE -----

Researching educational inequality with large-scale data (Bachelor seminar, 17 students). University Leipzig, Summer 2024 (One semester, 13 Sessions).

Seminar description: Large-scale data is extensively used in exploring research questions related to inequality in the sociology of education. Drawing on a variety of empirical studies, this method-focused course will be structured into 3 parts: a. Introduction of large-scale data in educational area and fundamental studies regarding educational inequality. b. Basics: data selection, correlation, (multi-level) regression, and causal inference. c. cross-national analysis. Each part will combine the understanding of empirical studies and technological practice. Replicating existing analyses can be adapted to suit the interests of participants. Upon completing this course, students could be able to design their own quantitative (bachelor) thesis. Basic knowledge of linear regression is a prerequisite. Having background in statistical software (especially R with R Studio) is recommended.

CONFERENCES -----

- 09/2024 European Consortium for Sociological Research (ECSR) Annual Conference 2024. Oral Presentation. Barcelona, Spain.
- 08/2024 16th European Sociology Association (ESA) Conference. Oral Presentation. Porto, Portugal.
- 05/2024 ISA RC28 Spring meeting 2024. Oral Presentation. Shanghai, China.
- 03/2024 European Consortium for Sociological Research (ECSR) Spring School “The Analysis of Social and Educational Inequalities”. Turin, Italy.
- 08/2023 4th Cultural Diversity, Migration, and Education Conference (CDME). Oral Presentation in Symposium (Chair: Prof. Philipp Jugert & Prof. Dr. Aileen Edele). Halle (Saale), Germany.
- 02/2023 10. Tagung der Gesellschaft für empirische Bildungsforschung (GEBF). Oral Presentation. Essen, Germany.

SCHOLARSHIP -----

- 07/2024 DAAD Conference Grant for ECSR Annual Conference 2024. DAAD (German Academic Exchange Service). 1,131 Euro.

LANGUAGE AND PROGRAM SKILLS -----

Languages: English (C2), German (C1), Chinese (Native speaker), Dutch (B1), Russian (A2)

Program: R, STATA, MS Office

RESEARCH INTERESTS -----

Sociology of education, educational inequality, migration, school and classroom diversity, social cohesion and integration

Methods: large-scale data, multi-level analysis, social network analysis, cross-national comparison
