The required performance was achieved in all exams in the BASPP.
Accordingly, repeat exams will only take place if there are registrations in Puls. I would like a short response if registration in Puls was successful.

In the MA/PhD program CES, the module exam AM-SME was not passed for the following registration:

– 822633

The re-examinations can be written **on September 9, 2024/ 10:00 a.m. in R: 1.12.0.39.**

Registration in Puls is absolutely necessary!

Please note the registration period (up to a maximum of 8 days before the exam date)!

If you miss the registration, you will only be able to make up the performance in the next summer semester of 2025.

I would like a short response if registration in Puls was successful.

Best regards

Teaching coordinator A. Hanisch
